A moment in time, forever yours

Your wedding will be filled with moments. Some you'll be part of, some you'll see and some will be beautiful surprises in your wedding album.

As your photographer, I'll be with you on this wonderful day to help you capture them all. You'll have those magical, emotional memories to reminisce about and enjoy forever.

I can't wait to be a part of it behind the camera.

Naturally, candidly you

Your wedding photographs should tell your story, capturing the emotion behind each and every moment. Every smile, every joyful tear and every embrace.

That's why my photography style is candid and relaxed, spending less time on formal posed images and more time photographing those small but significant moments that will make your day truly yours.

From your eyes meeting for the first time down the aisle, shining with love as you say your vows, to the joy that your loved ones radiate as they see you share this special day, my camera is always focused on being there for the fleeting moments that you'll want to treasure forever.

Capturing your beautiful beginnings

Your engagement is such a beautiful, important part of your love story - and it's a wonderful memory to keep and celebrate with a special photoshoot.

Engagement shoots are also a lovely, relaxed way for you both and I to get to know each other.

I love engagement shoots because it's a chance to really focus on you as a couple, and see your unique interaction from behind the lens before your wedding day. It's just the two of you, sharing the moment on camera together.

Your special day in focus

When your wedding day arrives, you'll want to soak up every minute.

Through the day, I'll be working closely with the venue staff and your wedding team to keep your day running smoothly and on time. Knowing I'm there from start to finish, preserving each magical moment of your day as it unfolds, means you can be fully present to enjoy your time with everything and everyone around you.

From the intimate time with your bridal party and groomsmen as you prepare for your day, to sharing your first dance as a married couple, you'll have a photograph to remember every moment.

Your beautiful backdrop to married life

You've spent time carefully and lovingly choosing your wedding venue, and I love making it a part of your story for you to treasure.

That's why I'll spend some time when I arrive photographing the venue and your ceremony room, before your guests arrive. It's a chance to capture all those details you've thought about and planned so carefully to create the perfect surroundings to begin your life as a couple.

A wedding photography package that's your perfect match

You want your perfect day made into memories in the perfect way - and that's why I offer bespoke packages that are completely tailored to you and your wedding day.

During your consultation, we'll talk through your plans for your day, and I'll help you create your photography package. There's lots of fun and unique things we can do to make the photography of your day really special, like aerial photography and photo booths.

From working with my second photographer to capture wedding preparations for both of you or more guest photography for larger weddings, to bespoke wedding albums and unique prints, if you've dreamed it for your wedding photography, let's make it come true.

The best moments of the best day

After your wedding day, I'll begin carefully selecting and editing the most beautiful images from the hundreds I've captured throughout your day.

This usually takes from four to six weeks, and hey, I'm a perfectionist. But I do try to get your images to you as soon as possible, as I know you'll be as excited as I am for you to enjoy them and relive those moments.

Taking to the skies for unforgettable photographs

There's nothing quite like a view from the skies to really capture your day for your wedding album.

For stunning photography of your wedding venue, wedding party and surroundings from up above, I'm also fully licensed drone pilot and photographer.

A2CofC licensed drone pilot. Drone photography is available weather and venue permitting.

Tell me about your perfect day.
